

LABOR ASKS SUPPORT FOR BOB LAFOLLETTE

Union Organ Fires First Big Gun to Down Its Political Enemies.

INTERNATIONAL NEWS SERVICE.

WASHINGTON, March 27.—"Labor," the official newspaper of the "Tug of War" of railroad laborers, the road unions and the Plumbers' plan, in its issue today calls on the road workers in Wisconsin to support the LaFollette progressive republican ticket at the presidential primaries to be held April 6.

The first big gun in the campaign of railroad labor to down the enemies of its political program will be fired this primary election in Wisconsin, says spokesman of the headquarters of the Plumbers' League.

The platform of the LaFollette progressive Republicans urges calls for a tax from presidential candidates to support the repeal of the new railroad law and the ultimate廢除 of railroads' stock water companies, the mining interests and all other natural resources.

HOLLAND MOBILIZES ON GERMAN FRONTIER

(INTERNATIONAL NEWS SERVICE)
LONDON, March 26.—Holland is mobilizing three military divisions for duty along the German frontier, according to a Batterdam dispatch to the Star today. The Dutch government is taking this action as a measure of precaution because of the cease fire between opposing German factions which has recently taken place in territory contiguous to Holland.

The dispatch added that the resurgent working men who control Emden have set the Krupp works to turning out munitions. Emden is but nineteen miles from Dusseldorf.

Better call up The Times and have it sent to your house every night. Then you'll be sure it will be there.

The CHENEY

The Glory of Easter Music

Choral records of Easter music are played at their best on The Cheney. The ensemble of the chorus is restored in all of its majesty—the balance of parts preserved in pleasing harmony.

The ability to reproduce such difficult records with all of the quality and perfect maintenance of tonal values is distinctive of The Cheney. A most important series of acoustic inventions give to Cheney reproductions rare shading and tone coloring which constitute the real beauty of any production.
